

MOND VALLEY GOLF CLUB

Founded 1965

Golf Buggy Policy

The purpose of this document is to establish a standard for the safe operation of Golf Buggies at Mond Valley Golf Club. The contents of this document apply to all golf buggies operated at the Golf Club. Any person who accepts the privilege of operating a golf buggy on Mond Valley Golf Club is deemed, by so doing, to have accepted the terms and conditions of the policy and have the knowledge, skills and training to operate this vehicle and will be fully accountable for their actions and consequences thereof.

Use of Ride-on Buggies on the Golf Course

The club has a number of buggies available for hire and they can be booked, in advance, by telephoning the Club Shop on 01792 845173 . The Club also allows members and visitors to use their own buggies on the course subject to them obtaining permission of the MVGC to do so and meeting the requirements set out below.

Introduction

The purpose of this document is to establish a standard for the safe operation of all ride-on buggies operated on the course at Mond Valley Golf Club (MVGC). This document also sets down the principles to be applied and conditions to be met for their use.

In researching this document account has been taken of a study, which examined the surface damage to fairway turf from using a ride-on buggy or golf cart, walking with an electric trolley and carrying clubs under acceptable and wet ground conditions. It came as no surprise to discover that there were significant increases in soil impact resulting from ride-on buggies during wet conditions and that damage would be long-lasting and costly to repair.

Any booking or use of owned buggies are subject to restrictions that may be imposed owing to the condition of the course. Two acts address the issue regarding anyone who has a disability as defined by this legislation. In essence MVGC and other such

institutions have a legal duty to produce a policy that allows equal access to the Club to those players who have a recognised

Equality Act 2010 and Disability Discrimination Act 1995 (as amended)

These two acts address the issue regarding anyone who has a disability as defined within the Act(s). MVGC has to ensure that all reasonable adjustments are undertaken, in respect of the use of a golf buggy to those with a disability to play golf.

Qualifications

This policy also encompasses all members and visitors who, while not fulfilling the legislative definitions of being disabled, need the help provided by a motorized ride-on buggy to play golf or use one out of preference.

In normal conditions there is no restriction on the use of ride-on buggies provided that they have been authorised by MVGC. The Club reserves the right to refuse permission if all of the conditions specified are not complied with.

Any person who operates a ride-on buggy on the golf course is deemed by so doing, to have the knowledge, understanding and skill to operate the vehicle safely and be fully accountable for their actions and the consequences thereof.

The safe operation of ride-on buggies on the course requires conscientious application and adherence to the minimum standard of care prescribed by this policy. In some circumstances, however it may be necessary to restrict their use.

During periods of inclement weather Health and Safety play an important part in determining whether the course or parts of the course should be closed to both able bodied as well as disabled persons if areas are deemed 'Unsafe'.

Restricting the use of buggies needs to be carefully considered and is subject to a 'hole by hole' risk assessment during these periods and their findings recorded.

It must be noted that should the entire course be closed no one, not even disabled personnel, can play the course.

Ride-on buggies must be operated in accordance with the requirements of the following documents:

- Golf Buggy Safety Policy (detailed below)
- Golf Buggy Safe Working Practice / Conditions of Use (Detailed Below)

- Golf Buggy Safety Policy Acknowledgement Form (available from the Club Office)
- Golf Buggy Route Guidelines (available from the Golf Shop)

It is Club policy that when normal conditions exist ride-on buggies may be used. If certain weather conditions prevail a joint decision may be made by a representative from Greens Staff, Golf Manager, or Club Secretary to restrict the use of Buggies if it is likely to cause significant damage to the course in part or whole.

Where restrictions are deemed necessary MVGC will review the situation on at least a daily basis.

Where conditions dictate buggies may be permitted, but only to those people who have a disability as defined by legislation and those who have an incapacity that would prevent them from playing golf without the use of a motorized ride-on golf buggy.

Such persons must have lodged with the Club Secretary a medical certificate signed by a registered General Practitioner confirming that they are unable to play a full round of golf without the use of a buggy.

If there are two such persons in the playing group, they must share a buggy. Discretion is given by Golf Manager, Head Greenkeeper, Hon Sec.

MVGC will make every effort to ensure that any restrictions placed on buggy users will be for the least amount of time possible.

Golf Buggy Safety Policy

The Club has a duty of care to all users of the MVGC. The topography of certain areas of the course is such that the user of a ride-on buggy when crossing these areas must show caution. It is recognised by MVGC that adequately safe means of access for all golfers whether in buggies or otherwise is provided. Moreover, the Club has to ensure the safety of golfers who do not wish to use ride-on buggies but who might be at risk should a ride-on buggy become defective, its driver lose control or is driven in a careless or reckless manner.

To assist the safe deployment of ride-on buggies all potential users (members, visitors and guests) shall comply with the following conditions:

- MVGC recognised their responsibilities within the meaning of the above legislation, which disables them from playing golf without the use of a ride-on buggy as well as to those players who may also use buggies in preference to walking.
- Ride-on buggies must be operated with the utmost courtesy, care and consideration for the safety and convenience of other course users. They must

be operated and parked in such a way that they do not impede or interfere with normal pedestrian or vehicular flow on club paths, roads and car park areas.

- The Club will accept no responsibility for any loss or damage caused to any property arising from the negligent use of a ride-on buggy by its users.
- The consumption of alcohol and /or the improper use of drugs are not permitted when using the ride-on buggy.
- The Greens Staff, Golf Manager, Secretary or any Committee Member has the authority to immediately prohibit any individual from using or being carried on a ride-on buggy should they witness abuse of these instructions.

Application for reinstatement of permission can only be made by the Club.

Safe Working Practice

Before use:

- All operators of ride-on buggies must sign a Safety Policy Acknowledgement form before they are allowed to drive the buggy.
- A ride-on buggy shall only be used for the number of occupants it was designed to carry and only by people who are authorised to use one. A member or visitor must be 17 years old and possess a Full Driving Licence (provisional accepted) to drive a ride-on buggy.
- A cursory check of the vehicle should be made to ensure that it is in a fit condition to be used. During use

During use:

- All occupants must be seated while the vehicle is in motion. Hands, feet and head must be kept inside the buggy at all times while the vehicle is in motion.
- Ride-on buggies must not be driven in prohibited areas and must adhere to the buggy paths or routes as designated by the club when circumstances dictate.
- The vehicle must be used to progress the game and must not be driven up and down excessively, e.g. when looking for golf balls.
- The vehicle must not be driven on tees, greens or the slopes leading up to them. The vehicle must not be used within 3 metres of any bunkers, ditches or ponds or slopes leading to them except when using the designated bridges.
- Check the area behind the vehicle before reversing.
- Always consider the terrain, existing vehicular and pedestrian traffic conditions as well as environmental factors that may affect the ability to operate the vehicle safely.
- Drive the vehicle only as fast as the terrain and safety considerations allow.

- To avoid tipping over, drive the buggy straight up and down slopes. Slow down before corners. All turns must be executed at reduced speeds.
- Avoid sudden stops or changes of direction that may result in loss of control. Be extra careful when the course is wet and muddy.
- Engage the brake when leaving the vehicle during the round.
- Buggy Drivers must not be under the influence of drugs and alcohol.
- Maximum 2 people and two golf bags per buggy.
- No Juniors can drive buggies under any circumstances.
- Care to be taken when driving over man made bridges or sleeper bridges. Ride on Buggies must be operated with the utmost courtesy, and care and consideration for the safety and convenience of other course users. Buggies must be parked that they do not impede or interfere with normal pedestrian or vehicle flow on club paths on the course.
- Buggies are allowed in the car park for entry and exit from the golf course, placing equipment on to the buggy at the start of a round and emptying the buggy at the end of a round.

After use:

When the vehicle is left unattended, turn the operating key to the off position, remove the key and engage the parking brake.

MVGC buggies user must be returned to the golf shop at the end of the round, and members or visitors must report to the golf manager for damage check of the buggy.

Personal Owned Buggies (Members and Visitors)

The owners of personal buggies are not covered by Mond Valley Insurance policy.

Every owner must insure their buggy to cover potential personal injury, third party injury and damage. A copy of this insurance policy must be presented to the managers and will be held on file for future reference.

All personal buggies are required to be fit for purpose and should be checked annually for use by a member or visitor.

Transport / trailers for the use of personal buggies must be parked at the far end of the car park to ensure ample room is available for fellow members to use the car park.

All personal buggy users are subject to weather conditions for the course on display or sent by email by the managers on behalf of the ground staff.

Buggy Hiring:

The last time a member or visitor can hire a buggy is 4pm (unless an arrangement has been made via shop staff)

All buggies must be parked up by 8pm for insurance purposes.

All buggies are to be returned to buggy parking area and keys must be returned to the shop or if shop is closed the keys must be handed into club staff (upstairs) or posted in letter box of the shop door.

Course Marshal facility (only) to use a buggy after 6pm is in place and it is strictly for use by course marshals or committee members.

Buggy Route Guidelines:

Prior to play, operators of buggies must ensure that they are completely aware of any restrictions placed on their buggies during their round of golf. Winter golf restrictions are seen at the bottom of this document.

In general, it is expected that anyone who is given the privilege of using a motorized ride-on buggy at MVGC to fully respect the course and other users.

Anyone causing unnecessary damage or driving in a manner considered reckless or careless may have his or her authority to use a buggy withdrawn immediately.

Where restrictions are placed on ride-on buggies the following principles must be adhered to by all:

Use the designated buggy routes, copies of which can be obtained from the Golf Manager, or to those parts of the course open because of adverse weather conditions.

Travel only as the Head Greenkeeper instructions in the absence of a buggy path.

When approaching the ball to play a shot other than a tee shot, the ride-on buggy should be stopped and parked and the buggy user should then walk to their ball to play the shot.

For some disabled golfers this may not always be possible. In such cases they **MUST** precede as follows:

- If the ride-on buggy user's disability is such that they are forced to travel on the rough, then please respect the conditions and everyone's safety.
- Do not travel the same path twice thus avoiding excessive damage. Use of initiative and common sense should be paramount.

Winter Golf Buggy Use:

The proposed single buggy use on the golf course is detailed below and is subject to course conditions and Health & Safety rules.

Single buggies are permissible all year round subject to both course conditions and Health & Safety legislation. It is the responsibility of the individual single buggy users to ensure course playing conditions are considered safe and practical for using a buggy.

Details of daily course conditions are available from the club shop 01792 845173.

All buggies must be driven by one set of wheels on the fairway and one set of wheels in the rough on each hole unless a dedicated path is available. Players must stop at right angles to their ball and walk on the fairway to play their next shot.

Do not meander in your buggy on the fairway!

Buggies are not to travel in the rough areas alongside the fairways.

Buggies must adhere to the rules of marked areas which prohibit any buggy to enter at the front of greens or alongside bunkers.

In the event of frost on the ground buggies ***will not be allowed to be used until the frost has cleared.***

The Head Green Keeper has the final decision on use of buggies on the course.

This policy is subject to review and amendment by the Management Board of Mond Valley Golf Club.
